WINE BAR

It all started in 2009, when Ed and Brittany Cabigao were looking for the perfect location for their nascent gastropub idea. When they came across an abandoned shotgun space on South Main, they knew they had found their spot. The only thing left was to figure out the name. After numerous attempts and brainstorming sessions, nothing seemed right; that is, until, they were reminded of their favorite spot in Charleston, a place called SNOB, which stands for Slightly North of Broad. They went online and found their address on the map, and voila - South of Beale was born. Affectionately called SOB since 2009, Ed and Brittany have turned their small gastropub into multiple locations, all in an effort to spread the love across Memphis and the surrounding area. Their mission is simple - introduce adventurous flavors and SOB style hospitality through their SCRATCH values - solutions, consistency, reliability, accountability, teamwork, communication and hospitality. Thank you for dining with us and we can't wait to serve you. We hope it surpasses your expectations!
